The Minutes were approved as circulated.

2. DCID 1/14

Mr. Osborn characterized the draft changes to the DCID produced by the working group as a fine document, but noted that it would not completely satisfy certain internal requirements. The Chairman then suggested several modifications of the working group's draft, and opened the matter for discussion.

In the extended discussion which followed, all Members expressed their opinions on the draft changes and noted their impact on DCID 6/3. At the conclusion of the discussion, it was agreed to accept the working group's draft; to maintain U.S. citizenship as a non-waivable criterion; to strike the word "marriage" from paragraph 3(2); to add "physical, mental and other forms of duress" to paragraph 3(2); to add "exceptions will be recorded by the Agency

3. ADP

The Chairman asked the Members to comment on their reactions to the problems posed by [redacted] presentation at the 25X1A9A last meeting and inquired whether they thought Committee action was indicated. Lt. Col. Bricka, Air Force Alternate Member noted that the Joint Chiefs of Staff had directed the services to face the ADP security problems and felt that the time was appropriate for the Committee to involve itself. Mr. Dinan, Navy, noted that the New Information Handling Committee (IHC) of USIB had certain security responsibilities in its charter, but the Chairman pointed out that the IHC might not fully realize the scope of the security problems involved in ADP.

The Committee concurred in the Air Force suggestion that a working group of the Security Committee be established chaired by
